

ARUNA

"One of the most talented singer/songwriters around at the moment." - TONY MCGUINNESS, ABOVE & BEYOND

In the male-dominated world of EDM, one artist is determined to be seen as more than "eye candy" or a voice for hire. Aruna is not solely the pretty vocalist you hear on your favorite dance tracks - she's penned a chart-topping single recorded by Miley Cyrus for the multi-platinum selling #1 Billboard Hannah Montana soundtrack, collaborated with some of dance music's biggest stars, and has since added both DJing and producing to her arsenal of skills. Along with being a classically trained pianist and formerly sought after studio musician, it's safe to say that Aruna is one of the industry's most exciting and successful leading Ladies.

Aruna got her start in EDM recording with a host of internationally recognized producers, including Cosmic Gate, ATB, Markus Schulz, Myon & Shane54 and Roger Shah. Her debut solo single, "Let Go," was released on esteemed UK imprint Arjunabeats' Volume 8 compilation and cracked the iTunes Dance Top 200 singles chart at #150.

But Aruna's true breakout moment came in May 2012 when her track "Live Forever" with Dutch legend Ferry Corsten shot to #2 on the UK Upfront Top 40 Club chart. Dubbed the "anthem of the summer" by fans around the world, "Live Forever" became one of the Top 50 most played tracks of 2012 on Sirius XM BPM and stayed at #1 on the Beatport Trance chart for nearly eight weeks straight, while the official music video racked up over a million views on YouTube -- 100,000 in the first two days alone. 2013 saw the arrival of her debut collaboration with the former #1 DJ in the world, Armin Van Buuren, "Won't Let You Go", on his artist album Intense, which shot to #1 on iTunes in 20 countries the day of its release.

Aruna's honest lyrics and emotive voice connecting time and time again with fans around the world earned her the #5 position in the first ever Beatsmedia's Top Vocalists poll. Her podcast, The Hot List, rocketed to #14 on the iTunes Top 200 Music Podcasts chart following a much buzzed-about guest mix on Above & Beyond's Trance Around The World, racking up more than a million downloads in the two months following. Her show has continued charting consistently in the Top 200 for over three years since.

The songstress/DJ has been a regular fixture on the international circuit as well, touring consistently both singing and spinning live, her electrifying, puñho-punches sets bringing crowds to their feet, hands in the air, often singing along to their favorite anthems with her. With a growing social media presence and plans in the works for numerous self-produced singles, the launch of her own imprint label and the release of her debut Hot List compilation, it seems the future is golden for this unique, multifaceted artist, who continues to raise the bar, break barriers and keep people guessing.

It currently premieres the 2nd and 4th Saturday of each month on DJ.fm and consistently charts in the iTunes Top 200 Podcasts with the release of each new episode.
